PegasusTSI, Inc., headquartered in Tampa, FL USA, provides innovative engineering, procurement and construction management (EPCm) project solutions to process and industrial markets worldwide.

FULL SERVICE, EXPERIENCED STAFF

The experienced PegasusTSI team has ‘World Class’ experts in each of the industries we serve. Our “Experienced People • Exceptional Projects” approach to engineering and management promotes a healthy blend of cutting edge innovation, responsiveness and flexibility.

PegasusTSI has distinctive capabilities in the area of process innovation and value engineering. Our team has long been recognized for their expertise in modernization and improvement of existing technologies, as well as, cooperative development of new technologies. PegasusTSI differentiates ourselves from others through our:

- Excellent SAFETY Performance
- Strong FEL (Basic Engineering) Capability
- Strong EPC capability and Experience
- In-depth Chemical Process Industry Experience
- Strong Revamp and/or Retrofit Experience
- RESPONSIVENESS and INNOVATION
- History of ‘Ahead of Schedule and Under Budget’ PERFORMANCE

At PegasusTSI, we believe that accidents / incidents are preventable. We continuously strive to ensure a “ZERO INCIDENTS” culture through proactive measurement, appraisal and reporting mechanisms.

“Protection of human life is of the highest priority and actions undertaken to protect the environment or company assets must reflect this philosophy.”

Executive Management Team

ONE TEAM. MANY SOLUTIONS.

The mission of PegasusTSI is to fully embrace our Clients’ business goals. By melding the talents of our team into a seamless and cohesive unit, we will deliver innovative solutions in the process and industrial market that achieve our Clients’ goals. We will aspire to be our Clients’ contractor of choice and inspire total confidence in our brand through our unrelenting commitment to quality services in the domestic and international marketplace.
