FERTILIZERS • POLYMERS & CHEMICALS • PETROCHEMICALS • OIL REFINING • **PHARMACEUTICALS** • CONSUMER PRODUCTS • ENVIRONMENTAL INDUSTRIAL & MANUFACTURING • METALS & MINERALS • PULP & PAPER • POWER & ENERGY

The pharmaceutical and biotechnology industry is constantly challenged to meet the market demands for new, innovative products. Drug manufacturers are driven to hit ever shrinking launch windows causing a premium on speed to market, while maintaining high standards of quality and containing costs.

TECHNOLOGY DRIVEN

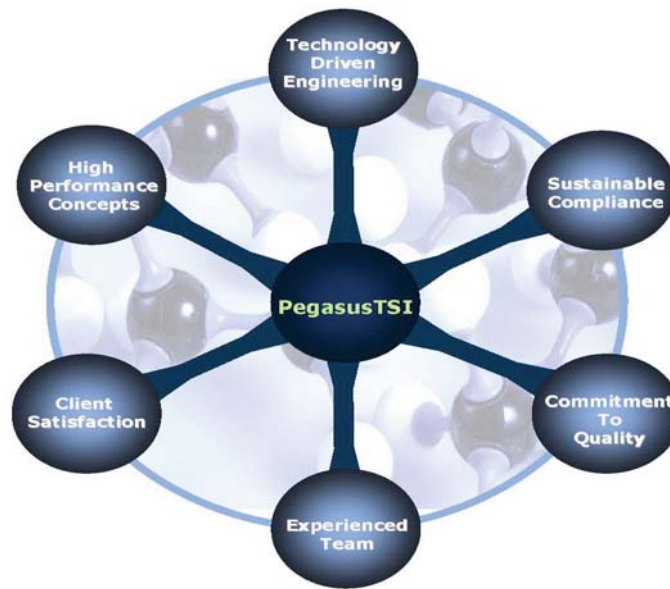

PegasusTSI's provides custom solutions that leverage the best process and equipment technologies to maximize the efficiency and capacity of all critical systems. At PegasusTSI, technology drives our engineered solutions, delivering high performance concepts with sustainable compliance targeted at your business needs.

HIGH PERFORMANCE CONCEPTS

The success of a project is determined by the ability to effectively transition from the technology stage to the

concept and design phase. Having a proven, experienced team with a consistent project execution approach is critical.

detailed engineering, procurement, construction and plant start-up.

PegasusTSI's pharmaceutical and biotechnology experience includes diverse project aspects from conceptual development and process design, through

EXPERIENCED STAFF

Our experienced team focuses on early evaluation and selection of key technologies that provide the best business solutions for our customers. This early focus on technology enables PegasusTSI's team to deliver better engineered solutions, with greater yield and sustained compliance leading to an enhanced return on assets (ROA).

CLIENT SATISFACTION

Understanding the client's goals and motivation for the project is important. This requires effective listening and having a project team familiar with the desired technology and knowledgeable to ask the right questions.

Our commitment is that the product we deliver will be internally reviewed, coordinated with the client, and of the highest quality. We will deliver a product on schedule that meets or exceed our client's expectations.
