

polymers & chemicals

EXPERIENCED PEOPLE • EXCEPTIONAL PROJECTS

FERTILIZERS • POLYMERS & CHEMICALS • PETROCHEMICALS • OIL REFINING • PHARMACEUTICALS • CONSUMER PRODUCTS • ENVIRONMENTAL INDUSTRIAL & MANUFACTURING • METALS & MINERALS • PULP & PAPER • POWER & ENERGY

The specialty chemicals sector continues to become increasingly more competitive due to globalization, sophisticated facilities automation, and tighter safety and environmental requirements. PegasusTSI has the experience to help its clients meet these challenges.

PegasusTSI Process Industry team, with over 35 years experience in the chemical and polymer industry provides exactly the expertise required for the very competitive Chemicals and Polymers Market sector. With its worldwide project experience, its vast process design expertise and its project management capabilities, PegasusTSI has completed projects for a wide range of intermediates and end-products.

PegasusTSI's primary focus is to provide Engineering, Procurement and Construction Management services for

large, mid-size and smaller projects from conception through operations.

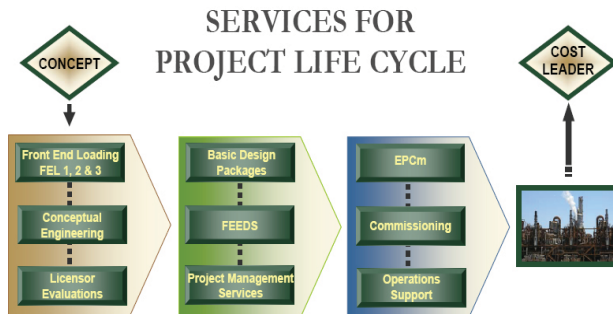

with no surprises. Our reliable execution is the result of experienced people coupled with time-proven work processes including:

- Field & Tie-in Surveys
- Equipment Location Verification
- Scope, HSE & Constructability Reviews
- Detailed Planning by Area

PegasusTSI's capabilities include technology commercialization experience and assisting our clients with "first-of-a-kind" technologies.

PegasusTSI offers:

- Technical & Economic Studies
- Experimental Programs Design
- Bench Scale & Pilot Plant Execution
- Physical & Chemical Property Acquisition
- Client Support

Every level of PegasusTSI's service and products are enhanced through the use of Stage Gate Processes, Best Practices Implementation and the incorporation of Safety and Environmental compliance systems.

PegasusTSI's proven project revamp and debottlenecking approach allows us to execute projects on time and on budget
